

✘ Conservation Alabama took the time late last night to post an entry about a request for questions and comments regarding the proposed Northern Beltline that was published in yesterday's Birmingham News, but not on the department's website (though we are not sure that it is required).

We won't necessarily bore you with the details of the post; we'd rather you [take it upon yourself to read the entry](#). We will say that several of the questions raised deal with the long term effects of the construction of the road. What we will do is post the contact information if you feel so inclined to write a letter to Brian Davis, ALDOT Division 3 Engineer, during this holiday season. We have a feeling that some of you may want to:
