

This afternoon SCLC president Bishop Calvin Woods, elected officials and concerned citizens stood out in front of the Richard Arrington, Jr. Blvd entrance to the Jefferson County Courthouse to ask that the election results from the February 5 special election for the Jefferson County Commission District 1 seat be certified. During his remarks, Bishop Woods suggested that the people who filed the motion to hold another election did not in fact live in District 1 but in District 4. There were other comments made, but you probably want to hear them for yourself (13:43):
