

Screenshot of relaunched [Health.com](http://Health.com) website.

Birmingham-based [Health Magazine](#), part of the [Southern Progress](#) stable of publications, [got some kudos from Matt Mullenweg](#), founding developer of [WordPress](#) (the software used to run this very site incidentally, at least [this version](#) is), for their use of the open-source software on their recently redesigned website yesterday.

So we're thinking that you need to check it out.
