We figured it was our duty to share news of a great sale, though the reason for it is a sad one. **Parkside Home & Garden**, operating across the street from Avondale Park since 2000, has decided to close its doors. The building is currently available for sale or lease. Based on the sign that was up in the front door window this week all items are 60% off. We're thinking that you need to head on over there. Or at least think about [checking out the store in Mobile](#) if you start to get sentimental (it opened back in April)...
