If you haven't seen a [SmartCar](#) yet (the one above was on Morris Avenue about a month ago), be prepared to see many more in the coming months and years cruising around town. The car first made an appearance in town last year as part of a cross-country promotional tour. Now, [one of the 72 SmartCar dealerships in the country is located in Hoover](#). They received one of their first car shipments about two weeks ago (I didn't have a camera - doh). Anyone out there own one of these yet?
