

We've learned that Mercedes Benz' Vance plant has announced that their Plant 1 will be going to one shift, cutting all second shift work. They've also announced that Plant 2 will run both shifts but reduced volume and that some of the employees at the facility have been offered a \$45,000 buyout with an additional \$1,000 for every year they've worked there. Those that have been offered the buyout have 10 days to make their decision.

We'll provide more information as it becomes available.
