

If you're reading this post, I'm happy to report that our site transfer is a success! For those that didn't get a chance to check out the last post on the old host, we spent the better part of the weekend attempting to get the site to run faster on a new server. This is the result... so far...

We'll keep you updated with additional minor changes that will be taking place in the next couple of weeks that will speed up the site (among other things).

Enjoy the ride!

P.S. If you want to help us with this transfer, you can always forward and share this post with others...
