Apparently there is an effort to begin advertising for [City Stages](#) a little early this year. This billboard for the music festival is visible as you're driving westbound on I-20/59 on the driver's side. It's the only one that we're aware of right now.

Next June will mark the 20<sup>th</sup> anniversary of the festival (currently scheduled for June 13-15), which of course leads us to our question:

**Who'd you like to see perform at City Stages to help celebrate its 20<sup>th</sup> year?**
