

The most interesting item on this morning's Birmingham City Council agenda involves [the Batmobile](#). Back in 2007 we linked to [a post written by Lou Anders about Birmingham's Batman - Willie Perry](#).

The car that Perry drove around while providing assistance to those in need has been the focus of a lot of attention in recent years. Today, so long as the issue isn't deferred again, it will find a new home. Item 2 on [today's agenda](#) hopes to accomplish just that as it would allow the mayor to enter into an agreement with [Old Car Heaven](#) to house the car for an indefinite period of time.

This morning's agenda also includes potential approvals for contracts with companies to demolish structures throughout the city (Items 9-14) as well as a funding request that would allow [Main Street Birmingham](#) to move forward with plans to develop an arts incubator in the Woodlawn commercial district (Item 6).

It should be an interesting meeting to watch... The [live stream](#) begins with pre-council at 9 a.m.
