

We got less than we thought we would to participate but am thankful for all that did take part in our Birmingham mayoral election poll. Fifty-two (52) votes were submitted; 4 of them were disqualified either for multiple IP address use or multiple submissions from an email.

Check out [the submission link](#) to see the results as they are posted. Expect the complete details results based on these submissions to be posted tomorrow morning.

While this was not a scientific poll by any stretch of the imagination, it does show the opinion of those that currently read The Terminal. That said, remember that this website **WILL NOT be endorsing any candidate for the October 9 election.**
